

## How Much Will It Cost to Process My Residential Construction Permit?

Fees for construction permits are set by the county fee ordinance each year. They are based on the cost of processing your application. Fees vary depending on the size and type of construction proposed. This brochure gives a general estimate of costs for typical single family residences that do not need special planning, coastal, flood hazard, or other reviews. For a more accurate estimate, or fees for other project types, please call Planning and Building at 805-781-5600 and ask for a Land Use Technician.
